

**Resolution Adopted by the
Subcommittee of Security
on September 15, 2023**

Elite Asylum Program

The Subcommittee of Security,

Subject to the approval of the Supreme Committee,

Recalling the revelation by the Prime Family of the development of an elite asylum program, for members of the Washington establishment and their Western counterparts,

Recognizing the Nobility International Blockchain (NIB) as the world's first multi-chain and the cornerstone of the financial, economic, and monetary framework of the Nobility International Dollar Agency (NIDA),

Reaffirming our unwavering commitment to international trade and collaboration with all law-abiding governments, organizations, and investors,

Acknowledging the ongoing efforts of the Open-Source Intelligence Consortium (OSIC) in identifying and documenting individuals and entities involved in heinous acts against Ukrainians, medical malpractices, and the systematic sexualization of children in the American and Western education system, among other transgressions,

Noting with concern the involvement of various influential figures, including military generals, Hollywood directors, lobbyists, academics, industrialists, politicians, and key members of esteemed associations in these acts,

Emphasizing the ongoing anti-treason and anti-pervert initiative, where the accused will be held accountable in both the court of public opinion and a court of law,

Highlighting the establishment of the elite asylum as a sanctuary for the ethical members of the Washington establishment and their Western counterparts,

Reiterating our commitment to safeguarding the reputations of informants through OSIC's reputational security capabilities and ensuring their financial security through NIDA's unique position as a currency issuer,

1. *Establishes* the Nobility International Elite Asylum Program (EAP), under the auspices of OSIC, to provide refuge for the ethical and cooperative members of the Washington establishment and their Western counterparts from the retaliatory actions of those guilty of the aforementioned crimes and transgressions;

2. *Mandates* OSIC to guarantee the reputational security of the program's beneficiaries;

3. *Requires* NIDA to provide financial security to the program's beneficiaries by way of preferential and priority access to capital;

4. *Warns* American and Western elites that non-cooperation is complicity;

5. *Offers* the United States of America a path towards rapprochement with the Nobility International by way of moral rehabilitation in cooperating with OSIC, in exchange for unique, irreplaceable, and indispensable contributions to its security apparatus and to that of the West;

6. Defines eligibility requirements for the EAP:

(a) *Verification of Identity*: Applicants must provide verifiable documentation confirming their identity, such as passports, national ID cards, or other official identification.

(b) *Proof of Affiliation*: Applicants should provide evidence of their affiliation with the Washington establishment or any other relevant entity, such as employment records, membership cards, or official letters of recommendation.

(c) *Cooperation with OSIC*: Applicants must demonstrate a willingness to cooperate fully with the Open-Source Intelligence Consortium (OSIC) by lawfully providing relevant information, testimonies, or other forms of assistance.

(d) *Absence of Criminal Record*: Applicants should not have any outstanding criminal charges or convictions related to the heinous acts identified by OSIC. A thorough background check will be conducted.

(e) *Moral Rehabilitation*: Applicants must show evidence of their efforts towards moral rehabilitation, such as participation in ethical training programs, public apologies, or other relevant actions.

(f) *Commitment to the Program*: Applicants must express a genuine commitment to the objectives of the EAP and adhere to its guidelines and regulations.

(g) *Security Clearance*: Given the sensitive nature of the program, applicants may be required to undergo a security clearance process to ensure they do not pose a threat to the program or its beneficiaries.

(h) *Confidentiality Agreement*: Due to the confidential nature of the information shared within the program, applicants must sign a non-disclosure agreement, committing to maintaining the secrecy of any sensitive information they come across.

(i) Financial Transparency: Applicants may be required to disclose their financial records to ensure there are no hidden assets or ties that could compromise the integrity of the program.

(j) Mental Health Assessment: A mental health assessment might be required to ensure that the applicant does not pose a mental health risk to others in the program.

Therefore,

The Subcommittee of Security advises those eligible for the EAP to contact OSIC through secure channels,

Requests the Supreme Committee to approve this resolution's entry into force.
